

PROFESSIONAL SUMMARY

Senior Software Engineer with 7 years of experience creating scalable and efficient solutions using Node.js and React. Proven expertise in CI/CD integration and serverless architecture, enhancing system performance and user engagement. Committed to continuous language learning and leveraging AWS services to drive innovative and impactful projects.

EMPLOYMENT HISTORY

AUG 2024 - DEC 2024

Senior Software Engineer - Contract, Charter Communications

- Led React with MUI 5 development for NLP Query Builder aiding data analysts, enhancing efficiency and accuracy.
- Implemented automated cypress testing, CI/CD pipelines, boosting workflow efficiency and code quality.
- Incorporated AWS Services that connect to NLP Query Language Builder

FEB 2021 - JUL 2024

Software Engineer III (Senior), Revel Systems, Atlanta, GA

- Design scalable micro-services using Node, React.js, and Typescript for millions of users across **18,000+** locations, ensuring high availability.
- Create **Reusable** CI/CD modules using Terraform and AWS CloudFormation
- Migrated multiple services to Serverless Architecture (Lambda, S3, DynamoDB, API Gateway, IAM, SQS, SNS) to support **Enterprise-level** scalability

MAR 2020 - FEB 2021

Software Engineer, Rooms To Go, Atlanta, GA

- Led website redesign, improving UI and boosting visitor engagement by **30%** using react.js, graphQL, and Contentful CMS
- Utilized tools such as Axe DevTools and Lighthouse to audit and improve web accessibility, adhering to WCAG guidelines.
- Boosted unit test coverage for React components from **30%** to **85%** by implementing comprehensive test cases through Jest React Testing Library, K6, and Cypress

FEB 2019 - MAR 2020

Software Engineer, Cognizant, Johns Creek, GA

- Developed and launched React.js and Java applications for Macy's associates, increasing employee productivity by **10%**
- Implemented automated testing for applications using Jest, React Testing Library, and K6

CERTIFICATIONS & AWARDS

AWS Certified Developer at AWS

Consecutive Quarterly GEM Award Winner (Revel Systems)

EDUCATION

AUG 2010 - JUN 2014

BSBA, Columbia Southern University, Orange Beach, AL

SKILLS

- AWS Services
- React.js
- Node.js
- Typescript
- React Testing Library & Cypress
- Python
- RDBMS
- HTML5/CSS3
- Terraform
- DataDog
- Nextjs
- Full Stack Development
- API Development
- Micro-services
- CICD Integration
- Serverless Architecture
- Containerization
- Software as a Service (SaaS)
- Agile Methodologies
- Cross Functional Roles
- Team Leadership
- Independent Continuous Learning
- Heroku
